

Settaya and Ohta-Gawa river

- 1. Usual Settaya guide-tour
- 2. Another guite route
 - (1) The other view points
 - (2) Another route and several topics

M. Kasuga mkasuga@seagreen.ocn.ne.jp

1. Usual Settaya guide-tour

Main route is Kina-saffron Shu brewery, and Yoshinogawa Sake brewery.

You will enjoy on holidays at the garden and annex house in Saffran-Shu.

2. Another guite route

(1) The other view points

Another route may exist.
Through watching from Ohta-gawa river in Settaya, you can find a lot of stories, the more understand Nagaoka, the more enjoy Nagaoka.

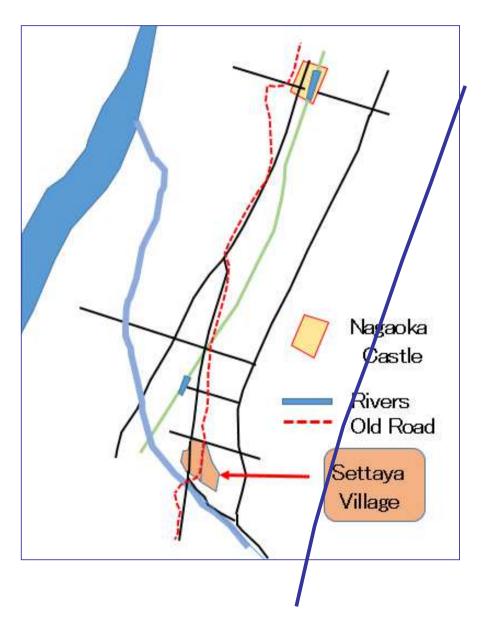

View points from Ohta-gawa river bank (Nature, crimate)

- 1 Nagaoka was once No.1 oil city in Japan, and now No.1 natural gas diging city.
- ② Reason behind heavy snow fall around Niigata.
- 3 Nagaoka has been developed with Shinano-gawa river, flolishing culture.
- 4 Surrounded by the rich nature, sea, mountains and plains.

(History)

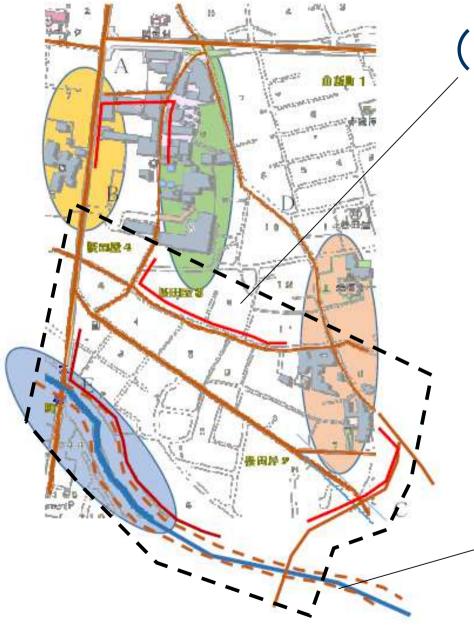

- 5 Nagaoka was located on an important crossing point of logistic network since old days.
- 6 Nagaoka was once an important position for military site of eastern Japan.
- Nagaoka has recovered two times from the catastrophic ruins.
 You can see the traces at Settaya town.
- 8 Two phrases: "Always on the battlefield" and "One hundred sacks of rice"

Settaya Location 400 years ago

Since Edo
Era, Settaya
Village
was located
near main
road
and rivers.

Another route and several topics

(Example route)

Ohta-gawa river

Higashi-yama hills from Ohta-gawa river bank

Soft / hard water
(Sake production)

East-West compression

Highly anticline layers have been produced.

The compression force significantly had lifted the east edge of the yellow area (about 6,000 meters).

Itoigawa Fosa Magna Museum

Heavy Snow fall reason for Niigata pref. area

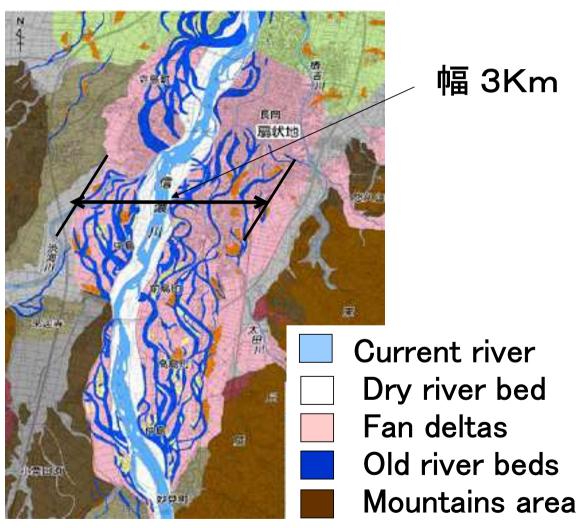

Cold air, accompanied with Siberian cold air group crosses the Sea of Japan on the Westerly wind, soaks up huge moisture from warm ocean stream.

It makes huge snow fall on Niigata.

Warm ocean stream also flows in Japan Sea. 3

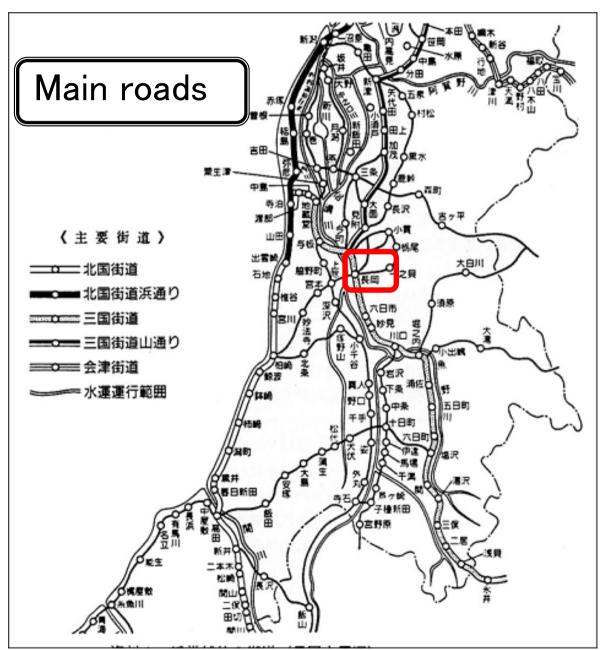

Changes of river beds of the Shinano-Gawa River around Nagaoka

Before constructing diversion—flow about 100 years ago, Niigata Pref. area in the downstream of Shinano—gawa river had frequently been hit by a great flood once every few years.

As a result, half of the wealthy farmers who are said to be nine families nationwide had been born in this area. You can see how severe the flood damages were at that time.

Nagaoka's logistic network in old days.

These routes on land and water connect Nagaoka to Tokyo and Osaka ditrectly since 400 years ago.

Niigata-Minato port had played a major role in Nagaoka's distribution network, supported by both land and river traffic.

Ohta-gawa river and the Mikuni-kaidoh road have run near Settaya, therefore Settaya had kept logoictics network not only to Nagaoka town but also to Tokyo or Osaka with the Ohta-gawa river and the Mikuni-kaidoh road.

Japanese green pheasant in the grass from Ohta-gawa river bank

At least three couples of Japanese pheasant live in the grass near the Ohta-bashi bridge. It is the national bird of Japan, very beautiful body like Chinese phoenix drawn on the Kote-E in the Kina-saffron-shu brewery.

In Hoshino-Honten, you find several characters "Kanji" on the surface of inside door, which door had installed in 1883 by a householder of merchant.

The phrase were excerpted from the famous large collection of books edited by an emperor of the Qing dynasty in the early 18th century.

We guess the phrase was one of the phrases, popular in merchants who liked to read books regarding art of managing in society.

In Saffron-shu brewery office entrance, you find gorgeous door and counter decorated with plaster art.

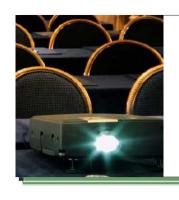

These gorgeous doors were usually installed on the large stone gates, named "Kabuki-mon gate". "Kabuki-mon gate" is considered as a symbol of wealthy merchants. In Settaya, there are several marchants having the great gates, built about 100-150 years ago.

We think it is one of the proofs that the Settaya district had been rather wealthy in that age, compaed with central area of Nagaoka town.

Other topics in this route

- Fermentation Industry in Settaya
- Sake production in eastern Japan, including Nagaoka and Niigata
- Rice grain belt and irrigation
- Beautiful scene in Yamakoshi area
 Nishiki-Goi and terraced paddy fields
- Hot spring (Alkaline simple sulfur spring)
- History in Nagaoka's eastern mountains area
